

JUPITER ROOM FOR INNOVATION

ROOM DIMENSIONS

- 1,400 m²
- 33.10 m long
- 38.20 m wide
- 9.35 m high
- air-conditioned

Direct connection to hall "Diana" I+II.
The total area can be increased to 2,200 m².

MAXIMUM SEATING

Theatre	1,536 participants
Classroom	952 participants
Banquet	1,070 participants

DANCE FLOOR

Parquet floor with max. 16.50 x 20.50 m
(covered by a carpet for meetings)

STAGE

Hydraulic Lift / Platform

- 13.27 x 2.79 m
- extendable without steps
- maximum height of 90 cm
- maximum load 3,000 kg in total

Stage Elements (mobile)

- 20 x 6 m stage, height 90 cm
- maximum of 60 stage elements
- 2 x 1 m scissor legs from Büttec
- 45 cm, 60 cm, or 90 cm height

LIGHTING

Variable ceiling lighting for different lighting situations: From dimmable dinner mood to suitable illumination for conventions and exhibitions. Please be advised that "Jupiter" does not provide daylight.

WEIGHT CARRYING CAPACITY

Floor Load maximum 500 kg per m²
(outside dance floor area)

Ceiling Load Individual suspension points up to 500 kg per load field

Suspension up to 50 kg per point

The ceiling is accessible via a catwalk. A plan with suspension points can be sent to you upon request. The points must be utilized according to static law. All hanging points (when fully loaded) must have a distance of approx. 7.5 m from one other.

With a total load up to 4t and according to the above conditions no additional calculation is required. With a total load over 4t or with a shortened distance of hanging points, additional calculation for verification is required; this test is carried out by the hotel. The related costs will be charged to the organizer.

ACCESS

A closed hall is available for loading and unloading (the vehicle must have an integrated lift), times for no noise at night must be observed.

Monday - Friday 22:00 - 07:00 hours
Saturday - Sunday 22:00 - 08:00 hours

An additional ramp with a fixed lift (max. 2.000 kg) is available for 24-hour use. Both entrances allow access to the hall at the same level.

TECHNOLOGY

Light girders are available. This equipment is provided by our technology partner but is part of the room and can be rented. If additional equipment is needed, we are happy to help establish contact. Furthermore, you have the opportunity to appoint your own technology provider.

INTERNET ACCESS

Wi-Fi

Available throughout the entire hall / hotel.
LAN connections are installed in all four walls.

Connections

- 10 fixed connections
- 20 flexible connections
- 4 flexible and 20 fixed connections in ceiling
- 2 fiber optic cables (FO)

Independent network

It is possible to build a separate and thereby independent network in the conference area, which is gigabit compatible. More information are available upon request.
